### Online Class and Exam Procedure:

- To participate in classes and exams, visit [udvash.com](http://udvash.com) and click on the "**Join Now**" menu. **Log in** using your admitted registration number.
- Daily Live Classes** will be held as per the schedule, with **two separate subject classes per day** at the mentioned date and time.
- Daily Live Exams** will be available as per the schedule from **8:00am to 11:55pm**, where students can take the exam once per with **two separate Subject**. However, for additional practice, students can take the Practice Exam multiple times with the same syllabus.
- To watch recorded videos and PDFs of daily classes, use the "**Past Classes/Course & Content**" option.
- To access **Archive Classes**, use the "**Course & Content**" option.
- The **Q&A** option is available **24/7** to resolve subject-related queries after the class.
- All students enrolled in the Combo Batch can take chapter-based exams both online and at any nearby branch (**from 9:00am to 5:00pm**).
- To get updates quickly, join our Facebook group ([Class 8 একাডেমিক - উদ্ভাস](#)).

### Class-08 Academic Program-2026 [Syllabus Part-03]

| Mathematics                         |             |                                                                            |
|-------------------------------------|-------------|----------------------------------------------------------------------------|
| Chapter                             | Lecture     | Lecture-based discussion topics                                            |
| <b>Chapter- 03</b><br>Measurement   | <b>M-14</b> | Exercise Problems: (17-22)                                                 |
|                                     | <b>M-15</b> | Sample Questions: (1-8)                                                    |
| <b>Chapter- 08</b><br>Quadrilateral | <b>M-40</b> | <b>Exercise-8.1</b> , Quadrilateral, Types of Quadrilaterals, Theorem: 1,2 |
|                                     | <b>M-41</b> | Theorem: 3,4                                                               |
|                                     | <b>M-42</b> | Theorem-5, Area of Quadrilaterals, Volume and Surface Area of solids       |
|                                     | <b>M-43</b> | Exercise Problems: 1-13                                                    |
|                                     | <b>M-44</b> | Exercise Problems: 14-19                                                   |
|                                     | <b>M-45</b> | Sample CQ                                                                  |
|                                     | <b>M-46</b> | <b>Exercise-8.2</b> Construction of Quadrilaterals, Construction: 1-4      |
|                                     | <b>M-47</b> | Construction: 5-7, Sample Questions                                        |
|                                     | <b>M-48</b> | Exercise Problems: (1-15)                                                  |
|                                     | <b>M-49</b> | Sample Questions: (1-7)                                                    |

|                                          |             |                                                                                                                        |
|------------------------------------------|-------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Chapter- 09</b><br>Pythagoras Theorem | <b>M-50</b> | <b>Exercise-9</b> , Right angled Triangle, Theorem of Pythagoras, Alternative Proof (By using similar angle triangles) |
|                                          | <b>M-51</b> | Exercise: (1-8)                                                                                                        |
|                                          | <b>M-52</b> | Alternative Proof of Pythagoras Theorem (Algebraic Proof), Converse of Pythagoras Theorem                              |
|                                          | <b>M-53</b> | Exercise Problems: (9-12)                                                                                              |
| <b>Chapter- 10</b><br>Circle             | <b>M-56</b> | <b>Exercise-10.1</b> , Chord, arc, diameter and circumference of a circle, Theorem: 1, Corollary-(1,2)                 |
|                                          | <b>M-57</b> | Exercise Problems: 1-4, Sample Questions                                                                               |

| Science                                                    |             |                                                                                             |
|------------------------------------------------------------|-------------|---------------------------------------------------------------------------------------------|
| Chapter                                                    | Lecture     | Lecture-based discussion topics                                                             |
| <b>Chapter- 03</b><br>Diffusion, Osmosis and Transpiration | <b>S-13</b> | <b>Lesson 6-7:</b> (Transpiration, Significance of transpiration)                           |
|                                                            | <b>S-14</b> | <b>Lesson 8-10:</b> (Transportation of water and mineral salts), Sample Creative            |
